PROFESSIONAL EXPERIENCE

ZUKK

(MAY 2024 – PRESENT)

FRONT END DEVELOPER

- Collaborated with diverse cross-functional teams to develop and maintain responsive web applications using Angular, React, TypeScript, and JavaScript.
- Worked on wide range of projects including work for the biggest telecom company in Brazil (Vivo) and manufacturing companies like Bernauer.
- Actively participated in Agile/Scrum events such as sprint planning, daily sync ups, working closely with different teams to deliver on-time releases.

IDWALL

(JAN 2023 – MAR 2024)

WEB DESIGNER | FRONT END DEVELOPER

- Collaborated with a team to develop responsive pages using Next.js, TypeScript, Node, and Strapi.
- Designed web and mobile application interfaces using Figma.
- Responsible for improving the website's performance.
- Designed and developed landing pages for campaigns from concept through deployment, ensuring responsive and engaging user experiences to maximize campaign engagement.
- Led the full lifecycle design and development of web applications for events, delivering complete solutions from initial requirements to final launch.

SENHASEGURA

(MAR 2021 – JAN 2023)

WEB DESIGNER

- Design and Developed responsive pages in HTML, CSS, and JavaScript.
- Developed WordPress websites using Elementor.
- Designed web and mobile application interfaces using Figma.
- Responsible for improving the website's SEO.
- Responsible for improving the website's performance.
- Developed visual identities for campaigns, internal platforms, and events.

NA COMUNICAÇÃO

(JAN 2020 – FEV 2021)

React	Gitlab	UX/UI	
Next.js	C#	Figma	
Angular	JQuery	Adobe Photoshop	
Tailwind	Node JS	Adobe Illustrator	

EDUCATION

MBA USP/ESALQ

(ABR 2024 – ABR 2026)

POSTGRADUATE DEGREE LATU SENSO – MBA, SOFTWARE ENGINEERING

This course enables professionals to lead changes in organizations, both in technical and managerial responsibilities, emphasizing current methods and techniques and providing solid training in the fields of management and decision-making, development, validation, management and improvement of software solutions, with emphasis on Python.

IGTI | XPE

(MAR 2022 – MAR 2023)

POSTGRADUATE, FULL STACK DEVELOPMENT

The postgraduate course in full stack development provides training in technologies such as node.js and REACT through bootcamps. At the end of the bootcamps, there is an Applied Project in which it is possible to put the technologies learned into practice through creating a web application that solves a specific problem. The project replaces the traditional Final Course Project, with one fundamental difference: it focuses on delivering value, applicability, practicality and current situations that occur in the job market.

PUC–SP

(JAN 2019 – DEZ 2021)

GRADUATION, INTERACTION DESIGN

The Interaction Design course at PUC-SP is the only one in Brazil to offer a training line in Interaction Design, a design and development trend that is expanding worldwide, which seeks to understand and anticipate the needs of societies to propose attractive, intuitive, effective and aesthetic technologies, digital products and services, creating unique experiences for people.
